

BUSINESS ASSOCIATE AGREEMENTS

1. REASON FOR ISSUE: This Veterans Health Administration (VHA) directive provides policy and requirements for the establishment and management of Business Associate Agreements (BAA) between Department of Veterans Affairs (VA) medical facilities and designated Business Associates.

2. SUMMARY OF MAJOR CHANGES: This VHA directive:

- a. Updates the BAA template in Appendix B.
- b. Updates the Decision Tree for BAA in Appendix A.
- c. Updates the Local BAA Management Flowchart in Appendix C.
- d. Incorporates new VA and VHA policy.
- e. Updates and adds responsibilities in paragraph 5.
- f. Updates Categories of BAAs in paragraph 6.

3. RELATED ISSUES: VA Directive 6066, Protected Health Information (PHI) and Business Associate Agreements Management, dated September 2, 2014; VA Handbook 6500.6, Contract Security, dated March 12, 2010; VHA Directive 1605, VHA Privacy Program, dated September 1, 2017; VHA Directive 1605.03, Privacy Compliance Assurance Program and Privacy/Freedom of Information Act (FOIA) Continuous Readiness Review and Remediation, dated September 19, 2019.

4. RESPONSIBLE OFFICE: The VHA Office of Health Informatics (105HIG), Information Access and Privacy is primarily responsible, in coordination with VHA National Data Systems (NDS), Health Information Access (HIA) Office for the contents of this directive. Questions may be referred to VHABAAIssues@va.gov.

5. RESCISSIONS: VHA Handbook 1605.05, Business Associate Agreements, dated July 22, 2014, is rescinded.

6. RECERTIFICATION: This VHA directive is scheduled for recertification on or before the last working day of November 2025. This VHA directive will continue to serve as national VHA policy until it is recertified or rescinded.

(DATE)

VHA DIRECTIVE 1605.05

**BY DIRECTION OF THE OFFICE OF
THE UNDER SECRETARY FOR HEALTH:**

/s/ Steven L. Lieberman, MD, MBA, FACHE
Deputy Under Secretary for Health

NOTE: All references herein to VA and VHA documents incorporate by reference subsequent VA and VHA documents on the same or similar subject matter.

DISTRIBUTION: Emailed to the VHA Publications Distribution List on November 17, 2020.

LOCAL BUSINESS ASSOCIATION AGREEMENT MANAGEMENT FLOWCHART .. C-1

BUSINESS ASSOCIATE AGREEMENTS

1. PURPOSE

This Veterans Health Administration (VHA) directive states the responsibilities and requirements for establishing and managing Business Associate Agreements (BAA) between Department of Veterans Affairs (VA) medical facilities and Business Associates. **NOTE:** *When applicable, the same requirements apply to Veterans Integrated Service Networks (VISN) and VHA Program Offices.* **AUTHORITY:** Title 38, United States Code (U.S.C.) § 7301(b) and 45 Code of Federal Regulations (C.F.R.) Part 160 and Part 164.

2. BACKGROUND

a. The Health Insurance Portability and Accountability (HIPAA) Act of 1996 Privacy and Security Rules, promulgated by the U.S. Department of Health and Human Services (HHS), provides national privacy and security standards for covered entities. A covered entity under HIPAA is a health plan, healthcare provider, or healthcare clearinghouse. A covered entity must enter into a BAA with any person or organization that requires access to the covered entity's protected health information (PHI) in order to perform certain health care operations activities or functions on behalf of the covered entity, or to provide one or more of the services specified in the Rule to or for the covered entity. When these health care operations activities, functions or services are performed by a Business Associate on behalf of a covered entity, a BAA is required even in situations when there is no underlying agreement between the covered entity and the Business Associate.

b. VHA is the only administration of VA that is a covered entity under the HIPAA Privacy Rule. HIPAA regulations require VHA to execute HIPAA-compliant BAAs with appropriate parties that create, receive, maintain, or transmit VHA PHI to perform activities, functions, or services for VHA. BAAs obligate VHA Business Associates to provide PHI protections and safeguards and agree to only disclose PHI as required by VHA and allowed under the Privacy Rule.

c. The Health Information Technology for Economic and Clinical Health (HITECH) Act's Final Omnibus Rule (incorporated into 45 C.F.R. parts 160 and 164) amended the HIPAA regulations so that the security and privacy requirements of HIPAA now apply to Business Associates, and their subcontractors, in a similar manner as such requirements apply to covered entities, and requires that these provisions be incorporated into BAAs. Subcontractors of Business Associates are now considered Business Associates with the same liabilities and Business Associates must ensure, through written BAAs (between the Business Associate and its Subcontractor), to have the required assurances.

d. VHA BAA operational requirements are the responsibility of VHA National Data Systems (NDS), VHA Health Information Access (HIA) Office. The VHA NDS/ HIA Office negotiates and executes national BAAs for VHA. The policy requirements of

business associate management are the responsibility of the VHA Office of Health Informatics, Health Information Governance, Information Access and Privacy Program.

3. DEFINITIONS

a. **Access.** Access is the ability or the means to necessary to read, write, modify, or communicate data/information or otherwise use any system resource.

b. **Breach.** A breach is an unauthorized acquisition, access, use, or disclosure of PHI in a manner not permitted under the HIPAA Privacy Rule which compromises the security or privacy of the PHI by posing a significant risk of financial, reputational, or other harm to the individual.

c. **Business Associate.** A Business Associate is an entity, including an individual (other than a member of VHA's workforce, for example VA's Office of General Counsel), company, organization, or another covered entity, that performs or assists in the performance of a function or activity on behalf of VHA. These functions or activities involve creating, receiving, maintaining, or transmitting PHI, or providing VHA with certain services as specified in the HIPAA Privacy Rule that involve the disclosure of PHI by VHA. The term "Business Associate" also includes a subcontractor of a Business Associate that creates, receives, maintains, or transmits PHI on behalf of the Business Associate. ***NOTE: VA organizations that are Business Associates of VHA are responsible for following guidance in VA Directive 6066, Protected Health Information (PHI) and Business Associate Agreements Management, dated September 2, 2014, and the BAA with VHA, to ensure their relationship with subcontractors is compliant.***

d. **Business Associate Agreement.** A BAA is an agreement VHA and a Business Associate must enter into before PHI can be released to the Business Associate, in order for the Business Associate to perform a covered activity for VHA. See VA Handbook 6500.6, Contract Security, dated March 12, 2010.

e. **Covered Entity.** A covered entity is a health plan, a health care clearinghouse, or a health care provider who transmits any health information in electronic form in connection with a transaction covered by the HIPAA Privacy Rule. VHA is both a health plan and a health care provider.

f. **Disclosure.** Disclosure is the release of, transfer of, provision of access to, or divulging in any manner of, information outside VHA. ***NOTE: The only exception to this definition is when the term is used in the phrase "accounting of disclosures."***

g. **Health Care Operations.** Health care operations are certain activities as related to VHA's function as a covered entity including: conducting quality assurance and improvement activities; population based activities relating to health care improvements or health care cost reduction, protocol development, or case management; review of a health care professional's competence or qualifications, practitioner performance, health plan performance, training programs, and certification, licensing, or credentialing activities; conducting medical reviews, legal services, and auditing functions; business

planning and development; business management and general administrative activities including management, customer service, and resolution of internal grievances.

h. **Individually-identifiable Health Information.** Individually-identifiable health information (IIHI) is a subset of health information, including demographic information collected from an individual that:

(1) Is created or received by a health care provider, health plan, or health care clearinghouse.

(2) Relates to the past, present, or future physical or mental health or condition of an individual, the provision of health care to an individual, or the past, present, or future payment for the provision of health care to an individual.

(3) Identifies the individual or there is a reasonable basis to believe it can be used to identify the individual.

i. **Payment.** Payment is any activity undertaken by a health care provider or a health plan to obtain or provide reimbursement for the provision of health care, including pre-certification and utilization review.

j. **Protected Health Information.** PHI is IIHI transmitted or maintained by a covered entity in any form or medium. ***NOTE: PHI excludes employment records held by a covered entity in its role as an employer or health information belonging to an individual deceased more than 50 years.***

k. **Security Incident.** A security incident is the attempted or successful unauthorized access, use, disclosure, modification, or destruction of information or interference with system operations in an information system.

l. **Treatment.** Treatment is the provision, coordination, or management of health care or related services by one or more health care providers. This includes the coordination of health care by a health care provider with a third-party, consultation between providers regarding a patient, or the referral of a patient from one health care provider to another.

m. **Use.** Use is the sharing, employment, application, utilization, examination, or analysis of IIHI within VHA.

4. POLICY

It is VHA policy that VHA must enter into a BAA with any person or organization that creates, receives, maintains or transmits PHI in order either to perform certain health care operations, activities, or functions on behalf of VHA, or to provide one or more of the services specified in the HIPAA Privacy Rule to or for VHA. It is VHA policy that standard VHA BAA templates will be used for all agreements.

5. RESPONSIBILITIES

a. **Under Secretary for Health.** The Under Secretary for Health is responsible for ensuring overall VHA compliance with this directive.

b. **Principal Deputy Under Secretary for Health.** The Principal Deputy Under Secretary for Health is responsible for providing oversight for the fulfillment of this directive.

c. **Assistant Under Secretary for Health for Operations.** The Assistant Under Secretary for Health for Operations is responsible for:

(1) Communicating the contents of this directive to each of the VISNs.

(2) Assisting VISN Directors resolve implementation and compliance challenges in all VA medical facilities within that VISN.

(3) Providing oversight of VISNs to ensure compliance with this directive, relevant standards, and applicable regulations.

(4) Ensuring that other VA entities that are Business Associates of VHA are informed of their responsibilities and those of their subcontractors related to PHI under VA Directive 6066.

d. **Executive Director, Health Information Governance.** The Executive Director, Health Information Governance is responsible for managing the requirements of the Business Associate Program.

e. **Director, Information Access and Privacy Program.** The Director, Information Access and Privacy Program is responsible for:

(1) Providing guidance on VHA policies and procedures for compliance with the HIPAA Privacy Rule and the HITECH Act regarding the Business Associate provisions.

(2) Reviewing and approving or disapproving edits by the NDS/HIA Business Associate Program Manager to all BAA templates.

f. **Director, VHA Health Care Security Requirements.** The Director, VHA Health Care Security Requirements Office (HCSR) or designee is responsible for:

(1) Coordinating reports of assessment findings, emergent situations, and remediation actions between NDS/HIA, Privacy Compliance Assurance (PCA), and HCSR. See paragraph 9.c.

(2) Conducting onsite assessments of Business Associates in conjunction with PCA staff when appropriate. See paragraph 9.

g. **Director, National Data Systems.** The Director, National Data Systems (NDS) is responsible for management of the Business Associate Program.

h. **Deputy Director, National Data Systems, Health Information Access Office.**

The Deputy Director, NDS/HIA Office is responsible for:

(1) Implementing the Business Associate Program in collaboration with the VHA Privacy Office.

(2) Monitoring the BAA business processes for VHA.

(3) Ensuring negotiation of national BAAs for VHA.

(4) Signing national BAAs on behalf of VHA.

(5) Establishing guidance for all operational aspects of BAA management.

(6) In collaboration with the Information Access and Privacy Program and the Privacy Compliance Assurance Office, establishing and overseeing a Business Associate assessment process.

(7) Ensuring that no local BAA can be executed when a national BAA is in place without prior approval by the NDS/HIA Office.

i. **VHA Privacy Compliance Assurance Officer.** The PCA Officer is responsible for:

(1) Conducting periodic independent performance assessments of the operations of VA's national Business Associates for compliance with the HITECH Act and the terms of the BAA in collaboration with NDS/HIA Business Associate Program Manager, VHA Privacy Office and HCSR. See paragraph 9.

(2) Conducting independent performance assessments or re-assessments, as appropriate, of any VHA Business Associate at any time to determine if a Business Associate is non-compliant to the degree that such non-compliance creates or presents a high risk of harm or injury to Veterans, VHA employees, other individuals, or to the VHA organization.

(3) Ensuring PCA assessments of Business Associates are coordinated with the Business Associate's designated point-of-contact (POC) (i.e., Company President, Contracting Officer, Legal Counsel).

(4) Collaborating with the NDS/HIA Business Associate Program Manager and the VHA Privacy Office on resolution of non-compliance found in Business Associate organizations through assessment activities.

j. **NDS/HIA Business Associate Program Manager.** The NDS/HIA Business Associate Program Manager is responsible for:

(1) Managing and ensuring policy implementation of Business Associate matters within VHA.

(2) Identifying all entities that meet the definition of a Business Associate (see paragraph 3.c.).

(3) Facilitating the execution of national BAAs.

(4) Monitoring national and local BAA inventories for timeliness and duplication.

(5) Updating the local BAA database with a copy of the local BAA received from the VA medical facility VHA Privacy Officer.

(6) Custodial responsibilities for all BAA templates including updating the BAA templates as required.

(7) Providing training as needed on the HIPAA Business Associate provisions and VHA policies and procedures.

(8) Offering BAA consultative services throughout VA.

(9) Maintaining project management web-based application for monitoring Business Associate activities and privacy or security incidents.

(10) Monitoring and addressing issues or privacy/security incidents related to local or national BAAs.

(11) Coordinating with VA medical facility VHA Privacy Officers on managing privacy/security incidents involving Business Associates.

(12) Negotiating and providing a fully executed national BAA to the appropriate VA medical facility VHA Privacy Officer.

(13) Providing consultation to confirm the VHA and Prime Vendor relationship for flow-thru BAAs and providing a flow-thru BAA template (see paragraph 6.c.).

(14) Keeping BAAs updated and maintaining documentation of agreements as long as the agreements are in place. See paragraph 8.a.

(15) Drafting and implementing Standard Operating Procedures for national BAA management.

(16) Establishing Business Associate assessment procedures and providing the Information Access and Privacy Program, PCA with the names of national Business Associates to be assessed for compliance with the terms of the national BAA.

(17) Collaborating with PCA on assessment activities associated with Business Associates.

(18) Collaborating with PCA and the VHA Privacy Office on resolution of non-compliance found in Business Associate organizations through an assessment process.

(19) Coordinating reports of assessment findings, emergent situations, and remediation actions between NDS/HIA, PCA, and HCSR. See paragraph 9.c.

k. **Director, Medicare and Medicaid Analysis Center.** The Director of the Medicare and Medicaid Analysis Center (MAC) is responsible for providing prior written approval before VA Medicare & Medicaid Services (CMS) data or CMS data files can be provided to a Business Associate. See paragraph 9.f.

l. **Chief Program Officer.** The Chief Program Officer of a VHA Program Office, as appropriate for the category of BAA, is responsible for:

(1) Determining if a BAA is required (see Appendix A).

(2) Monitoring BAA status for applicability in consultation with the VHA Privacy Officer.

(3) Ensuring BAAs have been executed appropriately and in accordance with this directive and VHA Privacy Office policy, to include designating signature authority for local BAAs.

m. **Contracting Officer or Responsible Staff.** The Contracting Officer (CO), or responsible staff managing the business associate relationship, is responsible for:

(1) Ensuring compliance with the mandates of VHA Procurement Manual, VHAPM Part 839, https://vaww.pclo.infoshare.va.gov/PCLO/PMWeb/VHAPM_Part_839.105-70.aspx. **NOTE:** *This is an internal VA website that is not available to the public. If a relationship with any person or entity constitutes a Business Associate relationship but is not bound by a formal contract, the CO or whoever engaged the Business Associate (i.e., responsible staff) is responsible for establishing and maintaining a BAA.*

(2) In collaboration with the VA medical facility Information System Security Officer (ISSO) and VA medical facility VHA Privacy Officer, ensuring that all entities meeting the definition of Business Associate have been identified and are provided with a business associate agreement. **NOTE:** *See Appendix A for standards on determining if an entity is a Business Associate.*

(3) Alongside the VISN VHA Privacy Officer and VA medical facility VHA Privacy Officer, monitoring Business Associates for patterns of activities and any practices by the Business Associate that may constitute a material breach or violation of the Business Associate's compliance obligations (see paragraph 8.b.).

(4) Reporting any potential security incident or breach of PHI that involves a Business Associate to their VA medical facility VHA Privacy Officer, and ISSO, if appropriate, who will enter the incident or breach into the VA National Security Operation Center (VA NSOC) Remedy System (see paragraph 8.c.).

n. **Veterans Integrated Service Network Director.** The VISN Director, as appropriate for the category of BAA, is responsible for:

- (1) Identifying Business Associates (see Appendix A).
- (2) Monitoring BAA status in consultation with the VA medical facility VHA Privacy Officer.
- (3) Ensuring BAAs have been executed appropriately and in accordance with this directive and VHA Privacy Office policy, to include designating signature authority for local BAAs.
- (4) Ensuring that all VA medical facilities within the VISN comply with this directive.

o. **Veterans Integrated Service Network VHA Privacy Officer.** *NOTE: VA medical facility VHA Privacy Officer includes VHA Privacy Officers at the local VA medical facility and at the VISN level. Each VHA Program Office should have a designated Privacy Liaison to coordinate privacy activities of their program office with the VHA Privacy Office. See VHA Directive 1605.01, Privacy and Release of Information, dated August 31, 2016. The VISN VHA Privacy Officer is responsible for:*

- (1) Searching the BAA Web site to verify if a national or local BAA exists. If a national BAA exists, providing the current national BAA to the CO or responsible staff. The BAA Web site can be accessed at:
<http://vaww.vhadatportal.med.va.gov/PolicyAdmin/BusinessAssociateAgreements.aspx>. *NOTE: This is an internal VA website that is not available to the public.*
- (2) Determining if a local BAA exists with the same company for the same services, and if so, providing the vendor's name and services to the NDS/HIA Business Associate Program Manager using the VHA BAA Issues mail group (VHABAAIssues@va.gov). *NOTE: The NDS/HIA Business Associate Program Manager will negotiate and provide a fully executed national BAA to the appropriate VHA Privacy Officer.*
- (3) Determining whether a national or local BAA exists, and if not, initiating and signing a local BAA utilizing the current local BAA template and providing a copy of the fully executed local BAA to the appropriate CO or responsible staff. The current local BAA template can be accessed at:
http://vaww.vhadatportal.med.va.gov/Portals/0/BAA_Documents/vhalocalbaatemplate.doc. *NOTE: This is an internal VA website that is not available to the public. The local BAA should be executed as a standalone document with individual signatures and the company name entered in the preamble and signature block of the agreement.*
- (4) Providing the NDS/HIA Business Associate Program Manager with a copy of the local BAA so the NDS/HIA Business Associate Program Manager can update the local BAA database.
- (5) Ensuring any local BAA is accounted for and inventoried as required.
- (6) Ensuring that a valid BAA is executed in accordance with this directive prior to disclosing any PHI to a Business Associate (see paragraph 7.b.).

(7) Identifying Business Associates providing services as described in paragraph 6.a. that may be eligible for a national BAA to the NDS/HIA Office.

(8) Ensuring any potential security incident or breach of PHI is entered into VA NSOC Remedy System, if appropriate.

(9) Monitoring BAA status in consultation with the Chief Program Office, VISN Director, or VA medical facility Director.

(10) In collaboration with the VISN ISSO and CO, ensuring that all entities meeting the definition of Business Associate have been identified. **NOTE: See Appendix A for standards on determining if an entity is a Business Associate.**

(11) Keeping BAAs updated and maintaining documentation of Agreements as long as the Agreements are in place. See paragraph 8.a.

(12) Reviewing all BAAs every 2 years from the effective date to determine if underlying agreements for the same services still exist and whether changes need to be made to the BAA. See paragraph 8.a.

(13) Maintaining copies of local BAAs at the VISN or VA medical facility that signed the BAA. See paragraph 8.a.

(14) Alongside the CO or responsible staff, monitoring Business Associates for patterns or practices by the Business Associate that may constitute a breach or violation of the Business Associate's compliance obligations. See paragraph 8.b.

p. **VA Medical Facility Director.** The VA medical facility Director, as appropriate for the category of BAA, is responsible for:

(1) Designating the VA medical facility VHA Privacy Officer as the signature authority for local BAAs.

(2) Identifying Business Associates (see Appendix A).

(3) Monitoring BAA status in consultation with the VA medical facility VHA Privacy Officer.

(4) Ensuring BAAs have been executed appropriately and in accordance with this directive and VHA Privacy Office policy, to include designating signature authority for local BAAs.

(5) Ensuring that VA medical facilities conduct assessments of local Business Associate relationships in accordance with VHA Directive 1605.03, Privacy Compliance Assurance Program and Privacy/Freedom of Information Act (FOIA) Continuous Readiness Review and Remediation, dated September 19, 2019 (see paragraph 9.e.).

NOTE: VA medical facilities are prohibited from conducting assessments of national Business Associates. Incidents or issues involving national Business Associates must be reported to NDS/HIA.

(6) Providing oversight to ensure that VA medical facility staff comply with this directive.

q. **VA Medical Facility VHA Privacy Officer.** The VA medical facility VHA Privacy Officer is responsible for:

(1) Completing the duties assigned in paragraphs 5.o.(1)-(14) at the VA medical facility level.

(2) Complying with VA medical facility VHA Privacy Officer requirements pertaining to Business Associate Compliance Monitoring activities as defined in VHA Directive 1605.03.

(3) In collaboration with the VA medical facility ISSO and CO, ensuring that all entities meeting the definition of Business Associate have been identified. **NOTE:** See *Appendix A for standards on determining if an entity is a Business Associate.*

(4) Alongside the CO or responsible staff, monitoring Business Associates for patterns of activities and any practices by the Business Associate that may constitute a material breach or violation of the Business Associate's compliance obligations (see paragraph 8.b.).

(5) Entering potential security incidents or breaches of PHI that involves a Business Associate into the VA NSOC Remedy System (see paragraph 8.c.).

r. **VA Medical Facility Information System Security Officer.** The VA medical facility ISSO is responsible for ensuring:

(1) In collaboration with the VA medical facility VHA Privacy Officer and CO, that all entities meeting the definition of Business Associate have been identified. **NOTE:** See *Appendix A for standards on determining if an entity is a Business Associate.*

(2) Applicable security requirements are included in statements of work or performance work statement, and in contracts and agreements for hardware, software, information technology, and related services by contractors that meet the definition of a Business Associate.

(3) Security requirements and specifications are properly implemented before any system containing PHI goes into operation and throughout the life cycle of the system.

(4) Entering potential security incidents or breaches of PHI that involves a Business Associate into the VA NSOC Remedy System (see paragraph 8.c.).

s. **Contracting Officer's Representative.** The Contracting Officer's Representative (COR) is a workforce member designated by a Contracting Officer and is responsible for:

(1) Identifying entities that are Business Associates under HIPAA.

(2) Ensuring that contracts have separate, fully executed, and current BAAs when the contractor meets the definition of a Business Associate.

(3) Providing technical direction within the general scope of a contract.

(4) Assisting the CO in preparing the acquisition plans.

(5) Reporting performance issues to the CO.

6. CATEGORIES OF BUSINESS ASSOCIATE AGREEMENTS

a. **Local Business Associate Agreements.** A local BAA is negotiated and executed between a single VA medical facility and a single Business Associate.

b. **National Business Associate Agreements.** A national BAA is negotiated and executed by the NDS/HIA Office and represents the agreements between two or more VA medical facilities (to include services contracted by a VISN, Regional, or VHA Program Office contracting office) and a Business Associate. No other BAA can be executed when a national BAA is in place without prior approval by the NDS/HIA Office. ***NOTE: The national or local BAA will be executed separately as a stand-alone document referencing the underlying contract or agreement. This allows BAA language to be used in multiple contracts and agreements and permits review of BAAs without re-negotiation of the terms of any underlying contracts or agreements.***

c. **Flow-thru Business Associate Agreements.** A flow-thru BAA is negotiated and executed with an entity (Prime Vendor) that is the legal party to a contract, but does not create, receive, maintain, or transmit PHI. PHI is disclosed directly to a subcontractor of the Prime Vendor. Since the Prime Vendor and VHA are the obligated parties to the contract, the BAA must be between VHA and the Prime Vendor. Thereafter, the Prime Vendor will be responsible for having a BAA in place with the subcontractor who will be receiving VHA's PHI, on the Prime Vendor's behalf. ***NOTE: VA medical facility VHA Privacy Officers must consult the NDS/HIA Business Associate Program Manager to confirm this relationship and to receive a flow-thru BAA template.***

7. RECOGNIZING THE NEED FOR A BUSINESS ASSOCIATE AGREEMENT

a. The HIPAA Privacy Rule requires VHA to execute compliant BAAs with persons or entities that create, receive, maintain, or transmit VHA PHI to perform an activity, function, or service to, for, or on behalf of VHA. The Privacy Rule also requires Business Associates (e.g., Prime Vendors, VA Administrations and program offices) to obtain written assurances that their subcontractors will comply with HIPAA requirements to the same degree as the Business Associates.

b. The Chief Program Officer, VISN Director, VA medical facility Director, CO, VA medical facility VHA Privacy Officer, ISSO, and COR work together to identify entities that are Business Associates under HIPAA. The VA medical facility VHA Privacy Officer must ensure that a valid BAA is executed in accordance with this directive prior to disclosure of PHI to a Business Associate.

c. Business Associates providing services as described in paragraph 6.b. may be eligible for a national BAA; the VA medical facility VHA Privacy Officer identifies such Business Associates to the NDS/HIA Office, which will administer all national agreements.

d. Because statutorily mandated security requirements must be included in contracts where VA must disclose PHI, contracts must be the primary acquisition vehicle for acquiring Business Associate services. Contract solicitations must be managed according to VA Handbook 6500.6, Contract Security, dated March 12, 2010 to ensure BAAs are incorporated into the contracting process when required. **NOTE: Contracts are not the only instruments that can give rise to a HIPAA Business Associate relationship. Purchase orders, modifications, purchase card orders, and other procurement options must be evaluated for Business Associate implications. A BAA must be entered into regardless of the purchase instrument used in situations where VHA PHI must be disclosed in order for certain services or functions to be carried out on behalf of VHA. The difference is that when a contract is used, as opposed to a purchase order, the mandated security requirements must be included in the contract.**

8. BUSINESS ASSOCIATE AGREEMENT MAINTENANCE AND RENEWAL

a. The NDS/HIA Business Associate Program Manager and VA medical facility VHA Privacy Officer must keep BAAs updated, and documentation of Agreements must be maintained as long as the Agreements are in place. The VA medical facility VHA Privacy Officer is responsible for updating and managing local BAAs. The NDS/HIA Business Associate Program manager is responsible for updating and managing national BAAs. VA medical facilities must use the current BAA template or other resources made available by the VHA NDS/HIA Office. The VA medical facility Privacy Officer must maintain copies of local BAAs at the VISN or VA medical facility that signed the BAA. For local BAAs signed at the VISN level, a copy must be provided to the VA medical facilities receiving services from the Business Associate. The VA medical facility Privacy Officer must review all BAAs every 2 years from the effective date to determine if underlying agreements for the same services still exist and whether changes need to be made to the BAA. Executed BAAs do not terminate if an underlying agreement for the same services is in place. The current BAA template can be located at:

http://vaww.vhadataportal.med.va.gov/Portals/0/BAA_Documents/vhalocalbaatemplate.doc. **NOTE: This is an internal VA website that is not available to the public.**

b. The CO, VA medical facility VHA Privacy Officer, or responsible staff must monitor Business Associates for patterns of activities and any practices by the Business Associate that may constitute a breach or violation of the Business Associate's compliance obligations. Any such breach or violation must be reported by the party aware of the activity to the VA medical facility VHA Privacy Officer. The Business Associate must mitigate any harmful effects of a breach and attempt to cure the breach. If no cure is possible, the VHA signature authority or alternate, in coordination with the CO, must terminate the BAA.

c. The CO or responsible staff member(s) managing the Business Associate relationship, must report any potential security incident or breach of PHI that involves a Business Associate to their VA medical facility VHA Privacy Officer, and ISSO, if appropriate, who will enter the incident or breach into the VA NSOC Remedy System.

d. Per the agreement, Business Associates must follow the mandates of VA, VHA, or Federal regulations as annotated in the templated language in Appendix B.

9. BUSINESS ASSOCIATE ASSESSMENTS

a. The NDS/HIA Business Associate Program Manager must establish and manage the operational relationship with all national Business Associates and must provide the Information Access and Privacy Program and PCA with the names of national Business Associates to be assessed for compliance with the terms of the national BAA. The PCA Officer must maintain and implement an assessment program to evaluate the national Business Associate's compliance with the provisions of the BAA based on specifications defined by NDS/HIA and the VHA Privacy Office.

b. PCA staff, in conjunction with HCSR, must conduct onsite compliance assessments of Business Associates when appropriate.

c. The NDS/HIA Business Associate Program Manager must coordinate reports of assessment findings, emergent situations, and remediation actions between NDS/HIA, PCA, and the HCSR.

d. Business Associate self-assessments can be utilized by PCA staff as an alternative method of Business Associate compliance posture when onsite assessments are not feasible or timely.

e. VA medical facilities must conduct assessments of local Business Associate relationships in accordance with VHA Directive 1605.03 but are prohibited from conducting assessments of national Business Associates. Incidents or issues involving national Business Associates must be reported to NDS/HIA.

f. If VHA must provide VA-CMS Data or CMS Data files to a Business Associate for it to complete the Business Associate function(s), the Business Associate needs to be assessed by the PCA Office prior to receiving VA-CMS data or CMS Data files from VHA.

10. TRAINING

There are no mandatory training requirements associated with this directive.

11. RECORDS MANAGEMENT

All records regardless of format (e.g., paper, electronic, electronic systems) created in this directive shall be managed per the National Archives and Records Administration (NARA) approved records schedules found in VA Records Control Schedule 10-1.

Questions regarding any aspect of records management should be addressed to the appropriate Records Manager or Records Liaison.

DECISION TREE FOR BUSINESS ASSOCIATE AGREEMENTS

NOTE: *This decision tree is a guide for determining the need for a Business Associate Agreement (BAA). Relationships not addressed in this decision tree should be referred to the Veterans Health Administration (VHA) National Data Systems, Health Information Access (NDS/HIA) Office, Business Associate Program Manager for evaluation.*

1. START

a. Does the person or entity provide a service, function, or activity to VHA or on behalf of VHA? **NOTE:** *See paragraph 4.a. of this appendix for examples of a Business Associate service, function, or activity.*

(1) YES. KEEP GOING! This arrangement might require a BAA.

(2) NO. STOP! This arrangement does not require a BAA.

b. Does the person or entity create, receive, maintain or transmit VHA Protected Health Information (PHI) to perform the service, function, or activity?

(1) YES. KEEP GOING! This arrangement might require a BAA. Proceed to the following exclusion and exemption questions.

(2) NO. STOP! This arrangement does not require a BAA.

2. EXCLUSION AND EXEMPTION QUESTIONS

NOTE: *This list is not all-inclusive; please check this Web site for a Department of Health and Human Services, Office of Civil Rights HHS/OCR list of exemptions: <http://www.hhs.gov/ocr/privacy/hipaa/understanding/coveredentities/businessassociates.html>. A BAA is not required for incidental disclosures that occur as a result of an otherwise permitted or required use or disclosure.*

a. Workforce Exclusion: Is the person or entity a member of the VHA workforce, as “workforce” is defined in 45 CFR 160.103? **NOTE:** *The VHA workforce consists of those with VA appointments (i.e., government employees, residents, students, volunteers, and Without Compensation employees).*

(1) YES. STOP! This is not a Business Associate relationship and does not require a BAA.

(2) NO. KEEP GOING! You must answer the following exclusion and exemption questions.

b. Treatment Exemption: Is the person or entity a health care provider as defined under Title 42 United States Code (U.S.C.) § 1395x(s) and § 1395x(u)? and is the PHI

being disclosed for treatment of an individual? **NOTE:** See paragraph 4.b. of this appendix for examples of a health care provider. Read paragraph 3.k. of this directive for the definition of “treatment.”

(1) If the answer to both questions is “YES,” STOP! This arrangement does not require a BAA.

(2) If the answer to either question is “NO,” proceed with the following exclusion and exemption questions.

c. **Research Exclusion.** Does the service, function, or activity meet the definition of research as defined in VA’s regulations implementing the Common Rule (Title 38 Code of Federal Regulations (C.F.R.) 16.102(d)), or VHA Directive 1200.05, Requirements for the Protection of Human Subjects in Research, dated January 7, 2019?

(1) YES. STOP! This arrangement does not require a BAA. **NOTE:** Although a BAA is not required, other legal requirements must be met to disclose PHI for research purposes (see VHA Directive 1605.01, Privacy and Release of Information, dated August 31, 2016 for details on disclosing information for research).

(2) NO. KEEP GOING! You must answer the following exclusion and exemption questions.

d. **Health Plan-to-Health Care Provider Exclusion.** Is the PHI being disclosed and/or used in VHA’s role as a health plan to pay for services to a health care provider?

(1) YES. STOP! This arrangement does not require a BAA.

(2) NO. KEEP GOING! You must answer the following exclusion and exemption question.

e. **Government Reporting Purposes Exclusion.** Is the person or entity a government agency to whom you are providing PHI for legally-mandated reporting purposes?

(1) YES. STOP! This arrangement does not require a BAA. **NOTE:** Although a BAA is not required, other legal requirements must be met to disclose PHI (see VHA Directive 1605.01 for details on disclosing information in these situations.)

(2) NO. KEEP GOING! Proceed to “Final Steps.”

3. FINAL STEPS

If the arrangement is not exempt or excluded from the BAA requirements, negotiate and execute a HIPAA compliant BAA utilizing the latest template.

4. EXAMPLES

a. Examples of Business Associate functions, activities, and services include, but are not limited to: **NOTE:** *Numerous local and national BAAs have been signed for the preceding services, some of which cover Business Associate services provided to VHA by VA offices (for instance, the national BAA between VHA and OGC noted below). Local agreements are not required with Business Associates who have signed national BAAs.*

- (1) Accounting;
- (2) Accreditation;
- (3) Actuarial;
- (4) Administrative;
- (5) Benefit management;
- (6) Billing;
- (7) Claims processing or administration;
- (8) Consulting;
- (9) Court reporting;
- (10) Data aggregation;
- (11) Data analysis, processing, or administration;
- (12) Financial;
- (13) Interpreter;

(14) Legal. **NOTE:** *VHA has a national-level BAA with VA Office of General Counsel; Individual VA medical facilities must not sign a separate BAA with Regional Counsel;*

- (15) Management;
- (16) Medical equipment maintenance;
- (17) Practice management;
- (18) Quality assurance;
- (19) Re-pricing;
- (20) Utilization review; and

(21) Other health care operations not specifically tied to treatment, research, and/or payment.

b. Examples of health care providers include, but are not limited to:

(1) Dentists;

(2) Durable medical equipment (DME) suppliers;

(3) Hospices;

(4) Hospitals;

(5) Home health agencies;

(6) Nursing homes;

(7) Pharmacies;

(8) Physicians and/or group practices; and

(9) Entities providing services pursuant to a health care provider's prescription.
